## **OxfordGC Awarded DMCS Support Contract**

***In Partnership with Maximus Federal Services, Inc., OxfordGC Expands DoED Capabilities***

**North Beach, Maryland**

**North Beach, Maryland, February 1<sup>st</sup>, 2025** – Oxford Government Consulting, LLC (OxfordGC), a trusted provider of mission-focused management and technology consulting services, today announced that it has been awarded a subcontract to support the U.S. Department of Education's Federal Student Aid (FSA) Debt Management and Collections System (DMCS) in partnership with Prime, Maximus Federal Services, Inc. Under the award, OxfordGC will provide critical program, business, and technical support services that advance the effectiveness, accuracy, and reliability of FSA's debt management operations.

The DMCS program plays a vital role in supporting the federal student aid lifecycle by managing debt collection, financial operations, and system modernization activities that help ensure responsible stewardship of taxpayer dollars. OxfordGC will deliver expertise across key functional areas including requirements management, change management, financial operations and analysis, schedule management, and quality and performance support, in close collaboration with the prime contractor and government stakeholders.

*"This award reflects the confidence our partners place in OxfordGC's ability to deliver high-impact solutions on complex federal programs," said Gregg Kelly, CEO of OxfordGC. "DMCS is a mission-critical system for Federal Student Aid, and our team is honored to contribute our deep domain knowledge, disciplined execution, and collaborative approach to help strengthen outcomes for borrowers and taxpayers alike."*

OxfordGC's work will support ongoing system enhancements, operational improvements, and data-driven decision-making across the DMCS environment, aligning with FSA's goals for accuracy, transparency, and continuous improvement.

**Tom Green, Program Manager, added,** *“DMCS requires a thoughtful balance of technical rigor and operational insight. Our focus will be on partnering closely with stakeholders to translate requirements into practical, effective solutions that improve performance while maintaining compliance and quality at every step.”*

This award builds on OxfordGC’s growing portfolio of federal civilian programs and underscores the firm’s commitment to delivering reliable, results-oriented support for high-visibility government systems.
